JENA AGING MEETING JAM 2018

WITH SESSIONS ON

Stem Cell Aging

DNA Damage & Aging

Senescence & Tissue Aging

Metabolism & Aging

Genome & Proteome Changes in Aging

INCL. NON-PI SEMINAR

www.leibniz-fli.de/jam2018

In association with

Aging Research Center (ARC) Jena | Jena Centre for Healthy Ageing |
Leibniz Research Alliance Healthy Ageing

Join us at Jena Aging Meeting (JAM) from September 6 to 8!

Unifying theme of the **Jena Aging Meeting (JAM)** will be the interaction of researchers that study basic principles of stem cell and tissue maintenance in aging. The meeting will focus on basic molecular and genetic processes that affect genetic and epigenetic stability, protein homeostasis, and metabolic processes thereby impairing the functionality and self renewal of stem cells, and organ maintenance.

The conference also includes a Non-PI Meeting on career opportunities: Jena Aging Seminar (JAS).

Scientific Sessions

Stem Cell Aging | DNA Damage & Aging | Senescence & Tissue Aging | Metabolism & Aging | Genome & Proteome Changes in Aging

International Top-Speakers

Anne Bertolotti | Vilhelm Bohr | Michael Brand | Dmitry Bulavin | Fabrizio d'Adda di Fagagna | Gerald de Haan | Maria Ermolaeva | Eric Gilson | David Glass | Vera Gorbunova | Ian David Hickson | Konrad Hochedlinger | Jan Hoeijmakers | Kristina Kirschner | Pura Muñoz-Cánoves | Francesco Neri | Emmanuelle Passegué | Michael Rape | John Sedivy | Jan van Deursen | Eric Verdin

Time & Location

WHEN: September 6-8, 2018

WHERE: Jena, Germany

VENUE: Friedrich Schiller University, Carl-Zeiss-Platz 3-4

Abstract Submission

UNTIL: May 21, 2018

WHERE: www.leibniz-fli.de/jam2018

Registration & Cost

COST: Academics - May Special (until May 21): 250€
Academics - Regular Fee: 300€
Non-Academics: 450€

REGISTRATION VIA www.leibniz-fli.de/jam2018

See you in Jena!
