

University-wide presentation and trial lecture for the W3 Professorship for Cell Signaling and Proteomics of Aging

PROGRAM – Tuesday, December 16, 2025

Dr. Ivan Matic

Max Planck Institute for Biology of Ageing, Cologne

13:30 - 14:00 | Presentation

“ADP-Ribosylation Signaling in the DNA Damage Response and Aging: From Mechanistic Insights to Technological Innovation”

14:00 - 14:30 | Discussion

14:30 - 14:45 | Break

14:45 - 15:15 | Trial lecture

“Introduction to ADP-Ribosylation: A Key Regulator of Cellular Signaling”

Location: Seminar room “Nucleus”, FLI 1, Beutenbergstraße 11, Jena

Host: Prof. Dr. Kai Papenfort

Both talks are scheduled as in-person sessions.
