

What can you find on our website?

We show you here:

This is what you can find on our **website**.

Our website address is:

www.leibniz-fli.de

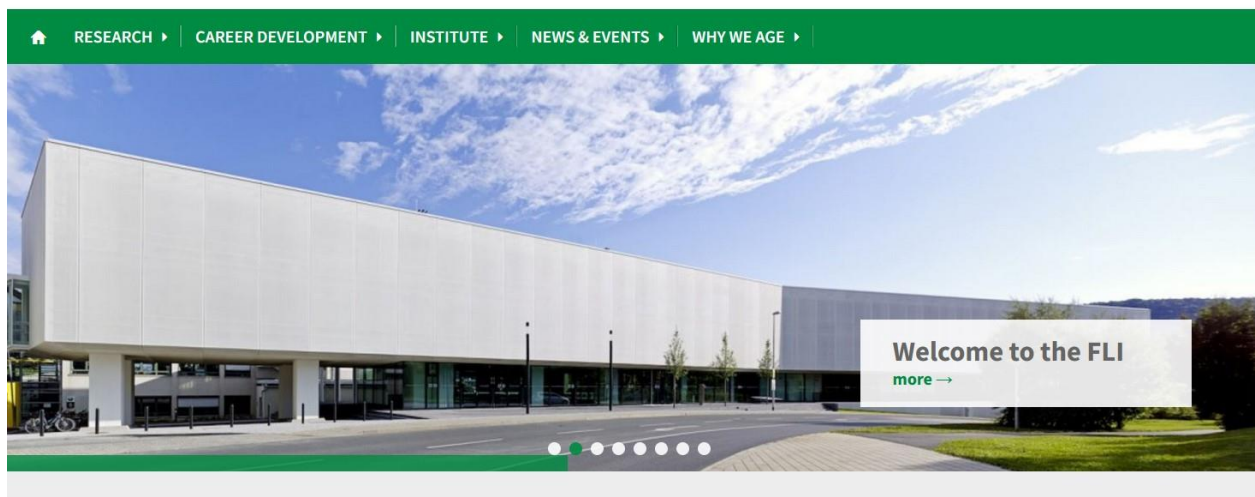

Remember:

The contents of our website are not in **easy language**.

Contact | Imprint | Data Privacy | Accessibility | Easy language | Intranet **EN** DE

EN is for English

First of all, to see our website in English, go to the upper right corner at the top of the page and click on the **EN** next to the **DE**. This will take you to the English-language version of the website.

FLI Logo

Our logo is at the top left of the page.

It looks like this:

If you click on the logo,
then you go back to the **homepage**.

There is also a different way.

Click on the **small house** in the menu bar.

The **menu bar** is the green stripe that goes across the top of the page
under the logo.

The house is all the way on the left.

The **house** looks like this:

Menu Bar

The menu bar has 5 **menu points**.

Click on one of the menu points.

Then, below it, you see more **sub-points**.

You can find a lot of information in them.

This is what the **menu bar** looks like:

Menu Point -> Research

The screenshot shows the website header with the fli logo (Leibniz Institute on Aging - Fritz Lipmann Institute) and navigation links (Contact, Imprint, Data Privacy, Accessibility, Easy language, Intranet, EN DE). The main navigation bar includes 'RESEARCH', 'CAREER DEVELOPMENT', 'INSTITUTE', 'NEWS & EVENTS', and 'WHY WE AGE'. A dropdown menu for 'RESEARCH' lists: Research Groups, Associated Research Groups, Former Research Groups, Core Facilities & Services, Cooperations, Technology Transfer, Web Resources and Software, Publications, Good Scientific Practice, and Animal Experiments at FLI.

The main content area features a banner image of a hand holding a petri dish with the text 'Research for Better Aging'. Below this, the breadcrumb 'Home > Research' is shown. The section title is 'RESEARCH FOR BETTER AGING'. The text describes the research concept: 'Aging is characterized by an accumulation of molecular damage, decreased stress responses, and a reduced stem cell function, regeneration and organ maintenance.' It lists influencing factors: 'genetic, epigenetic, metabolic, and environmental factors.' It mentions an 'interdisciplinary team' focusing on two interconnected program areas:

- ▼ Stem Cells, Regeneration and Organ Homeostasis in Aging (I)
- ▼ Genetics, Epigenetics and Molecular Cell Dynamics of Aging (II)

A diagram on the right illustrates the 'Delineation of the causative mechanisms of aging to enable aging in good health'. It shows a flow from 'Functional analysis of fundamental mechanisms of human aging' to 'Systems biology of aging comparing different species' (with sub-points: Epigenetic modification, Reduction of lifespan). Below this are two boxes: 'I. Stem Cells, Regeneration, and Organ Homeostasis in Aging' and 'II. Genetics, Epigenetics, and Molecular Cell Dynamics of Aging'.

Here you can find information about our **Research**.

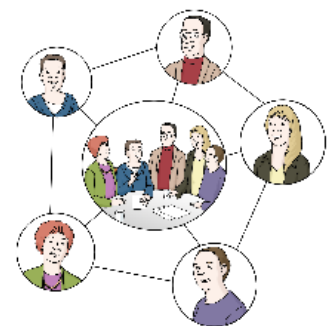

For example:

- What are our **main research areas**?
- What **research groups** are there at the FLI?
- What research groups do we work together with?

You can also find information about the **publications of our researchers**.

An example of a publication is:

An article in a **scientific journal**.

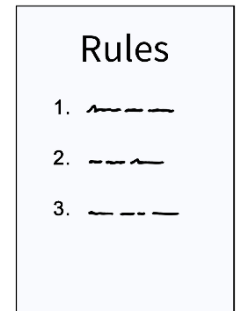

We also explain about our **animal tests**.

If we do animal tests,

then we have to follow a lot of **rules and laws**.

You can read about that here.

Menu Point -> Career Development

The screenshot shows the FLI website's navigation menu with 'CAREER DEVELOPMENT' selected. A dropdown menu lists options: Vacancies, Undergraduates, Graduates, Postdocs, Administration and Scientific Management, Scientific Supporting Staff, Apprenticeships, Family and Career, and Equal Opportunities. Below the menu is a banner for 'In Search of Clever Heads' featuring a woman's portrait. The main content area includes a sidebar with the same menu items, a breadcrumb 'Home > Career Development', and the article 'IN SEARCH OF CLEVER HEADS: CAREER AT FLI'. The article text states: 'Currently, there are around 350 employees from over 40 nations working at the FLI – clever heads in the fields of research and administration. We always need excellent personnel to be able to conduct excellent research. That's why it is of the utmost importance to us to attract excellent senior researchers to the FLI and integrate junior researchers in our outstanding programs of promoting young scientific talents – far beyond the borders of Germany. In addition, our back office is staffed with top qualified and experienced employees, who are keen on optimizing our administrative infrastructure and creating our processes as efficient as possible. As a member of the Leibniz Association the FLI follows the science focused equalization standards. The FLI implemented these standards into the...'. To the right is a 'Contact' section with a portrait of a woman.

Here you can find our **vacancies (jobs for people)**.

For example:

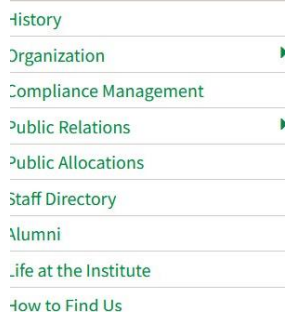

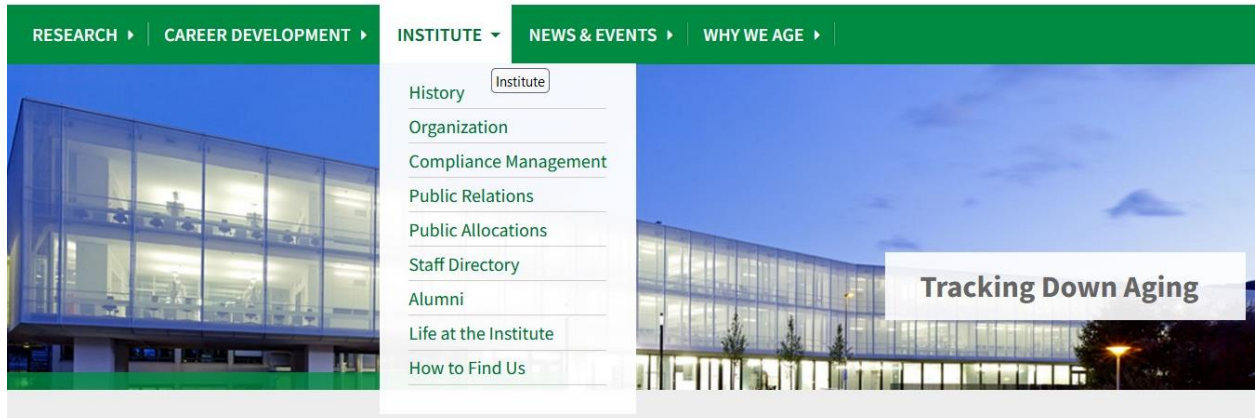

We have jobs for **students and PhD students**.

A PhD student writes a **PhD thesis** (a long paper) at the FLI.

We also have **apprenticeships**, to teach young people.

Menu Point -> Institute

Home > **Institute**

TRACKING DOWN AGING: THE FLI IN JENA

The Leibniz Institute on Aging – Fritz Lipmann Institute (FLI) is the first national institute in Germany to focus its activity on researching the biomedical causes of aging. Since 2005, scientists from over 40 nations have been conducting broad research on the molecular underpinnings of aging and the development of age-related diseases in order to – eventually – create the basis for new therapies designed to improve health at advanced age. As a member of the **Leibniz Association**, the FLI is publically funded by the German Federal Ministry of Education and Research (BMBF) and the State of Thuringia.

Contact

Leibniz Institute on Aging -
Fritz Lipmann Institute (FLI)

info@leibniz-fl.de

[How to find us](#)

Here you can find information about our **institute**.

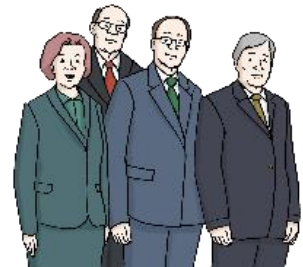

You can learn about the **history** of the institute.

We explain the **different parts** of our institute.

For example: There is a **Board of Directors**.

The Board of Directors makes important decisions about what the institute should do.

And there is a **Members Assembly**.

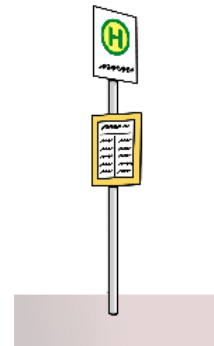

You can download our **yearly report** and our **press releases**.

There is also a **list of our employees**.

We also tell you **how to find us**.

You can come by **train, car, or plane** to us.

There is also a lot more information.

Menu Point -> News & Events

The screenshot displays the website's navigation menu with 'NEWS & EVENTS' selected. A dropdown menu lists 'Press Releases', 'Seminars', 'Conferences', 'Events', and 'More News'. Below the menu, a 'News & Events' banner features a background image of green pens on papers. The main content area includes a breadcrumb trail 'Home > News & Events', a 'FLI NEWS & EVENTS' header, and a 'PRESS RELEASES' section. The first press release is dated 'Jul 25, 2023' and titled 'On the right track - Novel treatment approach for soft tissue tumors', with a 'more' link. A second press release is partially visible, dated 'Jul 20, 2023' and titled 'ERC Consolidator Grant for LifeLongFit project at the FLI'.

Here you can find **Events** from our institute.

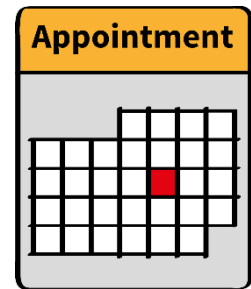

There are also important pieces of **News**.

The events are for scientists.

We also have **events for the public.**

That means: everyone can come.

Here you can find **what events will happen soon.**

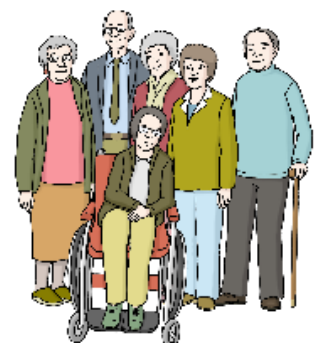

Menu Point -> Why We Age

The screenshot shows the website for the Leibniz Institute on Aging - Fritz Lipmann Institute (fli). The navigation bar includes 'RESEARCH', 'CAREER DEVELOPMENT', 'INSTITUTE', 'NEWS & EVENTS', and 'WHY WE AGE'. A dropdown menu under 'WHY WE AGE' lists 'Aging is Valuable', 'Aging Stem Cells', 'Damaged Genome', and 'Cancer Research at FLI'. The main content area features a large image with the text 'Why do we age at all?'. Below this, there is a sidebar with a list of links: 'Aging is Valuable', 'Aging Stem Cells', 'Damaged Genome', and 'Cancer Research at FLI'. The main text area starts with 'Home > Why We Age' and a section titled 'WHY DO WE AGE AT ALL?'. The text explains that aging is a continuous biological process and discusses the human lifespan and age-related diseases. It also mentions an interview with Christoph Englert.

Here you find information about **Aging (getting older).**

We explain:

- Why do we age?
- Why is research on aging important?
- How can we stay healthy as we age?

Small Menu Bar

There is also a small **menu bar** on our website.

This menu bar is at the top right side of the homepage.

The small menu bar looks like this:

Contact | Imprint | Data Privacy | Accessibility | Easy language | Intranet EN DE

Here you can find more information.

Contact

Here it tells you how you can contact us.

Imprint

Here you can read about who made the website.

Data Privacy

If you are on our website, then we get data about you.

For example:

- What time you visited the site,
- What you downloaded from the site,
- Your IP address.

The IP address is a long number from your computer. Every computer has a number like this.

We protect your data.

There are rules and laws about this in Germany and Europe.

We obey these rules and laws.

You can learn more from the menu point **Data Privacy**.

Accessibility

The **Accessibility Statement** (Erklärung zur Barrierefreiheit) tells us:

How accessible is our website?

Are there still barriers on our website?

A barrier is something that makes it difficult for some people to use the website.

Then there will be a list of these barriers in the statement.

Maybe the whole website doesn't need to be accessible.

Maybe there are some exceptions.

Then there will be a list of these exceptions in the statement.

Easy language

Here you can find information about our institute in easy language.

Intranet

This area is for our employees.

It has important information for them.

EN/DE

Here you can change the **language** of the website.

Click on EN or DE.

EN is for English.

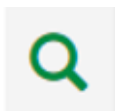

DE is for German.

Search

If you want to look for something on the website,
you can use the **search box**.

This is the little magnifying glass in the top right corner.

It looks like this:

Click on the magnifying glass.

Then an empty box opens up.

Type what you are looking for into the empty box.

Click on the magnifying glass again.

Then you get a list of what it finds with the words that you typed.
