

## Grant Proposal Cover Sheet - Cycle 4

Proposal Title:

Project Team Leader: [Name, Email, Title]

Additional Team Members:

Has this invention been disclosed to your Technology Transfer Office (TTO):

No \_\_\_\_\_ Yes \_\_\_\_\_ Docket#: \_\_\_\_\_

SPARK AT FLI supports development of **novel therapeutics (small molecule or biologic), diagnostics or device** for unmet medical needs. Any clinical indication will be considered. Projects receive substantial seed funding covering consumables necessary for granted projects for up to two years and mentorship from experts in all areas of drug development. In addition we are offering **practical support with the help of two well trained technicians** and we encourage to include some information how this support could improve the development of your project.

Proposals will be evaluated on the basis of:

- **Scope of unmet clinical need**
- **Novelty of approach**
- **Feasibility (cost and time)**

We will consider small molecule, biologics and diagnostics applications in these areas and other indications with serious unmet medical need.

**Eligibility:** Any FLI affiliate (faculty, clinician, postdoctoral fellow, or graduate student) is welcome to apply.

**Deadline: January 31<sup>th</sup>, 2019**

Submit electronically to Sonja Schätzlein (Sonja.Schaetzlein@leibniz-fli.de)
