

17th Joint Meeting of the Signal Transduction Society (STS)

in association with study groups of the Society for Biochemistry and Molecular Biology (GBM), the German Society for Cell Biology (DGZ), the German Society for Immunology (DGfI), the German Society for Pharmacology (DGP/DGPT) and the SFB 854

Organizers:
Frank Entschladen, Witten
Klaudia Giehl, Giessen
Ralf Hass, Hannover
Ottmar Janssen, Kiel
and the STS Advisory Board

SIGNAL TRANSDUCTION:

Receptors, Mediators and Genes

Leonardo Hotel, Weimar, Germany

November 4 - 6, 2013

<http://www.sigtrans.de>

Abstract Deadline: September 15th

STS Medal Award Lecture

Klaus Rajewsky, Berlin

Keynote Speakers

Stefan Constantinescu, Brussels

Massimo Dominici, Modena

Gunther Hartmann, Bonn

Christof Hauck, Konstanz

Michael Heneka, Bonn

Nancy Hynes, Basel

Andreas Pichlmair, Munich

Philip Rosenstiel, Kiel

Susanne Sebens, Kiel

Henry Vischer, Amsterdam

Special Focus 2013:

Infection and Inflammation

Other Topics

Immune Cells

Tumor Biology

Cell-Cell Interactions

G Protein-coupled Receptors

Differentiation, Stress and Death

Growth Factors, Cytokines and their Receptors
