

13:00 – 13:05

Dr. Klaus Ullrich
BioCentiv GmbH (BioInstrumentezentrum)
Welcome Address

13:05 – 13:35

Dr. Andi Krumbholz (UK FSU)
New insights into porcine influenza A virus
phylogenetics and evolution

13:35 – 14:05

Dr. Ulrich Möller (HKI)
Advanced methods for the computer-assisted
generation of scientific hypotheses about
complex systems in data-intensive fields.

14:05 – 14:35

Dr. Thomas Henkel (IPHT)
Martin Roth, Karin Martin (HKI)
Droplet-based microfluidics for application in life
science

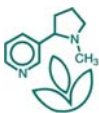

14:35 – 15:00

Coffee Break

15:00 – 15:30

Dr. Luis Martin-Parras (4-Antibody AG)
A novel technology for developing fully human
therapeutic Antibodies

15:30 – 16:00

Dr. Jan Wolfhard Kellmann (MPI-CE)
Green gene technology, agriculture, and *Solanum
nigrum*

16:00 – 16:30

Boris Pradarutti (IOF)
Ultrashort Pulse Terahertz Imaging
